LOOKING AHEAD

21.

IN GRATITUDE

WELCOME

Dear Friends and Partners:

We are at a turning point, as a global community, a generation, and an organization. Youth are ready to rise to the challenge.

The past three years have been a time of tremendous uncertainty for our global community, but also of deep examination and growth. COVID-19 has exposed the many stressors to our current system, from food insecurity to healthcare access. Combined with the extreme political polarization worldwide, the rampaging impacts of climate change, and the profound new threats to global security, our world feels like it is in crisis. But with fire comes new growth, and now is our time to re-imagine and design what can be.

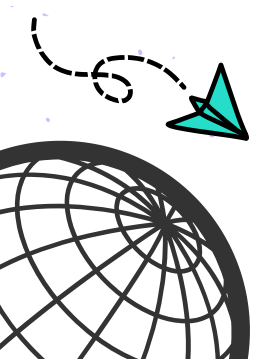

Youth inherit these challenges -- and opportunities -- at a pivotal time in their own lives. The late teens and early twenties are a powerful, transformational period for a young person, during which their worldview expands and sets. The experiences they have now will shape their skills, interest and ability to do the work we so desperately need moving forward.

AMP Global Youth was founded to equip youth and uplift their voices during a similar time of upheaval: 9/11. Our call to action is as clear and urgent now as it was then. Now and always, we urgently need the bold vision and creative energy of youth to lead our world forward.

The challenge is upon us. As we look back at the tremendous impact we have had in recent years, we also look towards the difficult but important road ahead with eager anticipation of what can be. We welcome you to join us on this mission to uplift the voices and power of youth.

With appreciation,

*Karen Showalter &
Aris Hines*

WHAT WE BELIEVE

AMPLIFYING THE VOICE AND POWER OF GLOBAL YOUTH SINCE 2002

AMP Global Youth has been lifting up the voices of youth around our greatest global challenges since we were founded by students at Yale after 9/11. Over 100,000 youth have participated in our programs over the past 20 years, empowering a generation of young global leaders.

OUR MISSION

We pursue, design, and demand our shared future by amplifying youth to make change louder around urgent global challenges.

We invite youth to:

- Tune in to youth-led conversations around global challenges.
- Turn up their unique power to win meaningful change around issues they care about.

OUR BELIEF

We are doers, pragmatists, dreamers, and creators. We believe a better world is possible, and are here to do the work to make it so. We believe each of us has an obligation to explore and act. We believe that we are the ones we've been waiting for.

OUR PEOPLE

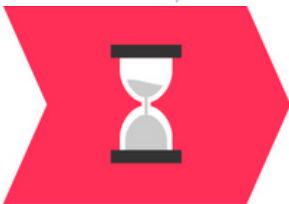

We work with bold and visionary young global leaders, and those who support them. Our programs engage youth in grades 9-12, college, and their early careers. We partner with organizations, educators, foundations and movements.

The vast majority of our strategic and programmatic work is done by youth.

WHAT WE KNOW

IT IS TIME TO PURSUE, DESIGN, AND DEMAND OUR SHARED FUTURE

THE TIME IS NOW

There is no time to waste in tackling the greatest challenges facing us today, from extremism to climate change to advancing human rights for all.

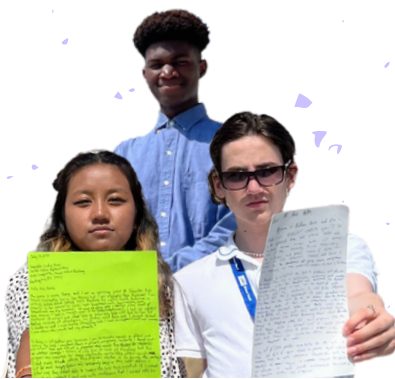

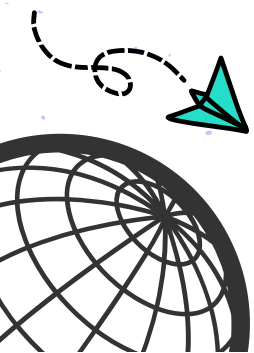

YOUTH HAVE POWER

Youth are the bold and visionary leaders we need to transform our world. No other generation has the fresh perspective and untapped creativity of youth.

WE MUST ACT

Every moment is an opportunity to expand our understanding, work with others to craft solutions, and demand a better future for us all.

20 YEARS OF IMPACT

2002

Founded by students at Yale as Americans for Informed Democracy.

2004

Launched national and campus campaigns on global poverty, nuclear security, global health, climate change, and gender justice, engaging tens of thousands of students.

2008

The first Global Scholar global leadership workshops, in Virginia.

2007

Bringing the World Home Conferences in Europe, Middle East, North Africa, and on hundreds of campuses across the US engaging tens of thousands of youth.

2012

Challenge Accepted conference in Washington, DC brings together experts and youth leaders across security, environmental and human rights spaces, in partnership with ActionAid USA.

2017-2020

Global Scholar programs expand to include new partnerships with the Opportunity Network, the British Council, the Stevens Initiative and more to bring unique customized experiences to youth.

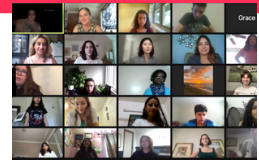

2023...

Launch of State of Global Youth Report, to articulate the needs, values and priorities of youth.

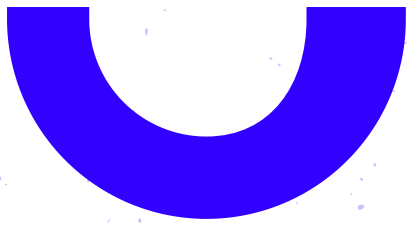

2020-2022

Expansion of Global Scholar virtual programming, as well as customized short courses on Arts and Social Change, Gender Justice, Advanced Leadership and more.

YOUTH LEADERSHIP

Youth as Partners

Youth are never "one and done" with AMP. We offer ongoing opportunities to connect and build skills, ensuring that we offer the support and community many youth need to transition from activated to impactful.

SCHOOL-YEAR YOUTH LEADERSHIP

Our Network and Student Coordinators help design, launch, and lead our school-year programming, from our social media presence, to the Power Up Conference, to our alumni programming and special projects. They are college students with experience and interest in leadership, global issues, communications and/or program management.

FELLOWS

Fellows are program alumni who lead special projects and events. Recent highlights:

Elections Fellows Avia, Fairouz, and Srilekha spent the year after their program leading our efforts to educate and activate youth around voting. They produced 36 videos highlighting the power of the youth vote, which were shared on Instagram, Tiktok and Youtube. The Fellows also published three op-eds sharing their personal reflections on the importance of voting, one of which was published in the IndyStar. In addition, the Fellows hosted a Facebook Live with distinguished political experts, including Anthony Mitchell, Legislative Assistant and CEO of Engage with Impact, Arriyanna Patton, a law student at Thurgood Marshall School of Law, Andrew Webber, a political research strategist and founder of Black Jubilee, and Kadida Kenner, the Director of Campaigns at the Pennsylvania Budget and Policy Center.

COVID-19 Fellows Tova and Mohamed continued our efforts to amplify the impacts of COVID-19 on youth throughout the '20-'21 school year. They produced 19 videos highlighting the youth perspective on COVID-19, and hosted two livestreams with prominent experts highlighting the intersections of COVID-19, public health, and mental health. Their livestreams featured Satvik Sethi, a mental health activist and social entrepreneur, and Dr. Joshua Sharfstein, Vice Dean For Public Health Practice and Community Engagement at Johns Hopkins University. The fellows also published op-eds highlighting their perspective on COVID-19 and called on leaders in their communities to take into account youth voices in their decision making. Tova's pieces was published in the Chicago Sun Times and led to a longer investigative feature on COVID's impact on youth.

Leadership Snapshot

100%

of school-year programming is run by youth leaders.

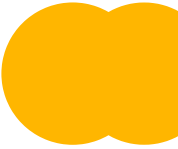

40%

of program speakers and experts are youth.

100%

of AMP programs are advised and/or led by program alumni and youth leaders.

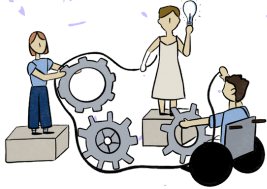

GLOBAL SCHOLAR: EMPOWERING YOUTH LEADERS

Global Scholar is a global leadership accelerator program that prepares youth to be visionary leaders and bold changemakers around urgent global challenges. Now in our 14th year, Global Scholar remains the cornerstone of our work amplifying the voice and power of global youth. The program rests on three key pillars:

**Activating our
Global Citizenship**

**Exploring our Greatest
Global Challenges**

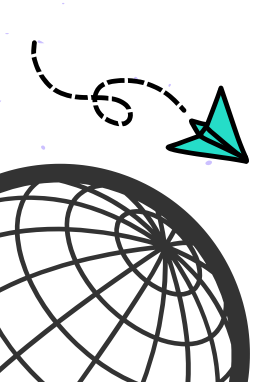

**Building Bold Leaders &
Visionary Changemakers**

“This year I am in eleventh grade at a public IB school in NYC, for which I have been taking a Global Politics class...The lessons keep taking me back to the summer, and to our Global Scholar discussions. Now I appreciate even more the approach of the summer program and the way it encourages each of us to participate and share our own very diverse experiences and points of view on global issues.”

“The experience made me very reflective of my own life, and conscious of my choices and values. It will impact how I live my life and move throughout the world.”

“I have met amazing youth leaders that have inspired and showed me how youth can actively make change.”

GLOBAL SCHOLAR: EMPOWERING YOUTH LEADERS

BY THE NUMBERS

48%

of Global Scholar participants received financial aid to participate.

50%

of participants identified as being from an historically marginalized community.

100%

of participants became more confident getting involved in global issues as a result of the program

OKAY

During this period Global Scholar participants hailed from 20 US states and 14 countries, including Morocco, France, Ukraine, Syria, South Africa, South Korea, Pakistan, Yemen, Peru, India, Egypt, Canada, and beyond.

“Global Scholar doesn't just teach you how to change the world-it teaches you how to change yourself, to then change the world even more.”

YES!

GLOBAL SCHOLAR: EMPOWERING YOUTH LEADERS

Global Scholar Intensive Washington, D.C. or Online

Our flagship program, the Global Scholar Intensive session equips youth leaders with the expanded knowledge, community, and confidence to launch a lifetime of changemaking.

Based in Washington, D.C. or online, Scholars meet experts from around the world, participate in our transformative Action Lab workshops, and design projects to launch back at home.

This and all of our programs place a strong focus on youth leadership on global issues, featuring youth speakers and experts from around the world.

100%

of recent participants recommend the program to a friend.

100%

of recent participants are more confident as change makers.

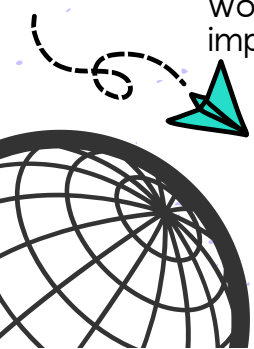

“It was an unforgettable once-in-a-lifetime experience that I wouldn't have been able to receive anywhere else- more than anything I could've ever imagined going into the program.”

Global Scholar Gender Justice 4 Day Short Course

Designed as a deep dive into the specific challenges facing women and LGBTQIA+ communities, this 4-day workshop explores framing concepts like human rights, feminism, and gender justice, as well as the specific challenges of workplace justice, reproductive rights, and access to education. We cap it all off with our signature Action Lab workshops and projects applying new skills for real-world impact.

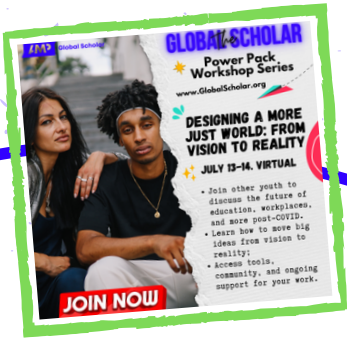

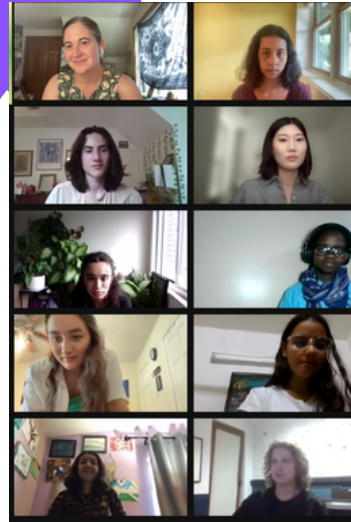

“I feel more comfortable sharing my beliefs and opinions, knowing there are others who feel the same and support me.”

GLOBAL SCHOLAR: CUSTOM & SHORT COURSES

Global Scholar: Power Pack Series 1-3 Days Online

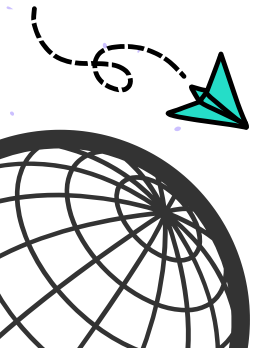

Our Power Pack workshop series connects youth around the urgency and tension of this post-COVID moment, inspiring them to think about what the future of education, the workplace, and our communities can look like; build hard skills for launching a big idea; and connect with others inspired to step up and forward to re-envision and design our world. The Power Pack workshops are 1-2 day virtual experiences, connecting youth from around the world.

Global Scholar: NYC

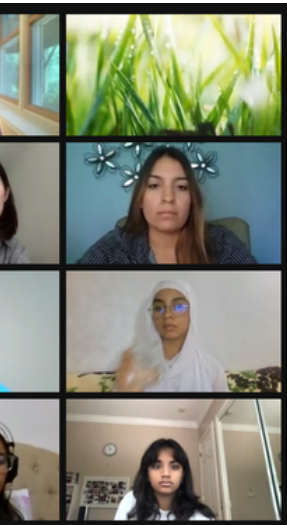

Our Global Scholar: OppNet program is a customized learning experience for Opportunity Network Fellows in New York City. Based on our three program pillars -- global citizenship, exploring global issues, building bold & visionary global leaders -- the program takes a special look at local challenges, change makers, and decision makers, equipping high school youth from across New York City with a deeper sense of confidence to be leaders in their communities. The OppNet sessions have ranged from 2 - 4 weeks in length, delivered both in person and online.

“It was an unforgettable once-in-a-lifetime experience that I wouldn't have been able to receive anywhere else- more than anything I could've ever imagined going into the program.”

Global Scholar: Arts & Social Change 5 Day Short Course

Designed for artists and non-artists alike, this 5-day workshop helps participants connect with the visionary, visceral, emotional, and sometimes unspoken side of our work as youth leaders. Held online in 2021, in 2022 participants were on the ground and met with artists, visionaries, and creatives across New York City.

Global Scholar: COVID-19 5 Days Online (NYC, Morocco & USA)

COVID-19 disrupted life as we know it, but also opened space for us to articulate a new vision for our communities, education, workplaces, and more. In 2020 we offered three COVID-19 specific versions of the program. One session was designed for youth in NYC, and two sessions were designed with an intercultural focus for a blended class of youth from the US and Morocco. All three featured public health experts from Johns Hopkins, the CDC, and beyond, who provided deep insights into the challenge, and helped us further conversations around what youth can do to address it.

33%

of participants reported an increase in their understanding of issues in other countries.

Global Scholar: Cross-Cultural 5 Days Online (Morocco & USA)

In 2020, we brought together 50 youth from the US and Morocco for two special Global Scholar sessions focused on building intercultural understanding in the context of COVID-19. Funded by the Stevens Initiative, Scholars not only deepened their understanding of the issues and confidence as leaders, but they built lasting ties with youth from around the world.

“I'm inspired to continue learning about what I'm passionate about because I can make a difference and I'm capable of being the leader I want to be and do great things.”

POWER UP CONFERENCE: CONNECTING YOUTH VOICES

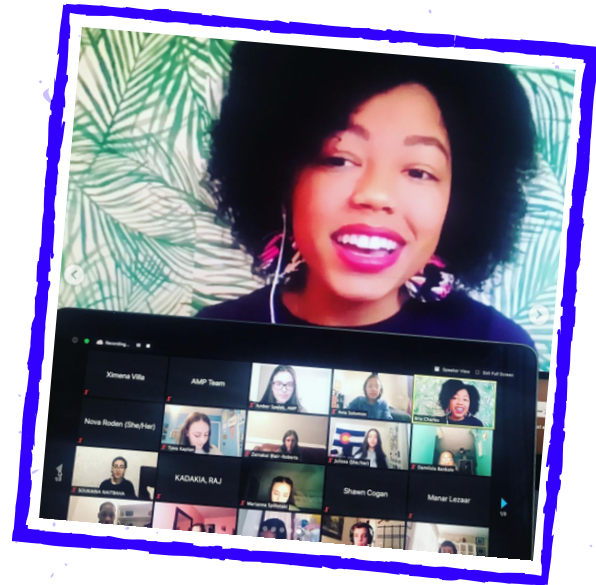

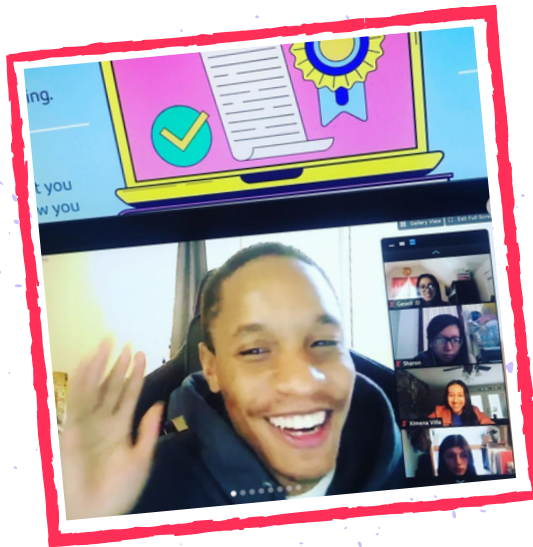

The Power Up is AMP Global Youth's annual student-designed event, bringing young leaders from around the globe together to explore, refresh and connect. Designed and led entirely by our Fellows and Student Coordinators, the Power Up has brought tremendous speakers from around the world face-to-face with youth leaders eager to re-energize their changemaking.

Power Up themes:

- Power-Up 2022: Power Up for Climate Justice!
- Power-Up 2021: COVID-19

88%

of attendees rated the workshops as useful or very useful

Over 50 students from 12 countries and 20 U.S. states participated in the 2021 Power Up Conference. In 2022, almost 100 participants joined.

CREATED BY YOUTH, FOR YOUTH

“Amazing! So many speakers and field trips taken – I likely wouldn't have met these people or gone to these places without Global Scholars.”

AMPLIFYING THE YOUTH VOICE: SOCIAL PRESENCE

Our student leaders and creators produce compelling social content that educates, inspires and activates youth around our greatest global challenges year round.

INSTAGRAM REACH

750,000 Per Quarter

Power Up: Training Series

AMP Training Director Aris Hines hosts a provocative bi-weekly show breaking down tough concepts and providing quick strategic tips for taking action on our Instagram page.

Student Correspondents

Student video reporter Tova unpacks breaking news, from the relationship between Russia and Ukraine, to human rights in China, all with a fresh youth perspective on our Instagram page.

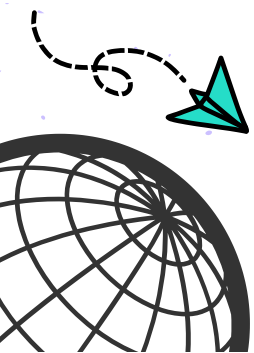

Sound Off! Video Series

Student reporters from around the world weigh in on timely hot topics, ranging from the impact of cancel culture to the value of studying abroad. Check out Evy, Arpon, Lena, Dani and more on Instagram.

Sharing Global Opportunities

Student leader Sahana pulls together the top opportunities for youth eager to get more involved on our LinkedIn and Instagram pages.

GLOBAL YOUTH VISIONARY AWARDS: CELEBRATING YOUTH INNOVATION

Global Youth Visionaries amplify the voices of youth leaders around our power as a generation, and the biggest challenges facing us at this moment in time. They bring powerful perspective and experience, to inform and uplift the work of youth activists everywhere. And they reflect the diversity, creativity and vision of youth today.

Our seven 2021 Visionaries were all female leaders of organizations and movements from Malaysia, Ireland, the US, Nigeria, the DRC, and Macedonia. Our 2022 Visionaries are youth leaders from Brazil, Germany, the Sudan, and the US fighting for climate justice, indigenous rights, and more.

THOUGHT LEADERSHIP: THE FUTURE OF YOUTH CHANGE MAKING

GLOBAL EDUCATOR FORUM W/UNESCO

In 2022, AMP worked with the UNESCO Center for Peace to convene educators from around the world in a lively and timely conversation around the meaning of global citizenship, and approaches to instilling it in our students.

Joined by educators from around the world, the event was an important contribution to both our work, and that of youth leaders around the globe.

DIVERSITY EDUCATION WEBPAGE: +150K VIEWS

Our webpage on "Why Diversity is Important in the 21st Century" has been viewed over 150,000 times during this period, making it consistently one of the top-ranked webpages for the search term "why is diversity important". The page offers helpful definitions, videos and prompts to inspire visitors to not only understand the basics, but make their new knowledge operational in their lives and their leadership.

LOOKING AHEAD: SCALING AND INNOVATING TO ADDRESS THIS MOMENT

We are at an exciting turning point, having experienced rapid growth in our numbers and products in recent years. Our biggest challenge remains keeping up with the demand, and ensuring that every student is able to attend regardless of their ability to pay.

Our core product, the Global Scholar program, continues to have extraordinary impact, and operates sustainably. That said, the urgency of this moment in time compels us to pursue new opportunities to not only bring this work to as many students as possible, but also to continue to refine short versions focusing on hot topics like climate, disinformation, the fight for racial justice, intercultural understanding, and more.

In addition we continue to explore and test the viability of virtual and asynchronous models of our work, as well as travel-based versions of the program.

As we bound ahead, we look forward to many new partnerships and opportunities. Thank you to all who have supported our work over the years, from students, to staff, to parents and organizational partners. Onwards!

WISH LIST: 2023 & BEYOND

BUILDING OUR CAPACITY FOR CHANGE

Our programs have a proven and transformational impact on youth, and our goal is to ensure they are as accessible as possible for any student who wants to join us. Here's where we're headed in 2023 and beyond.

Launching Our Virtual Programs with Discovery Education

We are building a virtual curriculum to launch on the Discovery Education platform, which would reach millions of youth in the US and beyond with youth-led and engaging content around climate change, girls education, democracy protection, and much more. This is a game-changing expansion for us, and one in urgent need of financial support.

Expansion of Travel-based and Intercultural Education

We are eager to continue expanding our place-based programs, both in the US and around the world. In 2023 we're launching new partnerships to bring Global Scholars to the Legacy Museum in Montgomery, Alabama, and eventually to the Tanzania, in partnership with our partners at YouLead Africa. These and all of our programs are in urgent need of scholarship funding, to ensure that every student who wants to join us is able to do so regardless of ability to pay.

Support for State of Global Youth Report

This flagship product will articulate the needs, values, and priorities of youth in the US and around the world, as shared through conversations, interviews, and artistic pieces. We can drastically expand the scope of the report, and the dissemination of its findings, with additional financial support.

Sponsorship of the Global Youth Visionary Awards

We need to celebrate youth leaders, and make sure their story and advice are widely shared with the next generation. Our goal is to expand the scope and number of Global Youth Visionaries each year, expanding the program from a one-time reward to a "changemaker-in-residence", who can have a more hands-on and meaningful relationship with the Global Scholars.

Scholarships for Global Scholar

Our flagship program has a transformational impact on youth. We are totally self-funded off of program revenues, and dedicate almost \$50,000 to scholarships every year. Yet too many students are still unable to attend due to lack of financial resources. We are eager to bring this experience to any and every student who wants to join us.

Contact us at
Karen@AMPGlobalYouth.org to discuss
these and/or any other ideas for
supporting AMP Global Youth and Global
Scholar!

CONNECT WITH US
